Professor Rudi Klein, Chief Executive of the Specialist Engineering Contractors' Group is a very well known figure in the construction sector. In this seminar, Professor Klein will speak about payment and the very topical issue of the future of retentions, particularly in light of the aftermath of the Carillion collapse and the Construction (Retentions Deposit Schemes) Bill currently before the UK Parliament.

This event is free and open to members of the Adjudication Society and non-members.

This is likely to be a popular event and early booking is recommended to avoid disappointment.
