

SLEIGHBELLSRINGING INC.,

ARE YOU LISTENING?

The first name in Steelwork

6th June 2006

Yo Theo boy,

We have been building these little old aircraft hangers all over the known world for years now and do not need some kid just out of diapers to tell me how to do my job.

I ran the connection past the first Mrs Doodlebug last evening when I saw her behind the desk at the Drug Store and I can tell you that connection is as safe as the Kentucky Subprime Bank and Garden center which is located next to my Stud farm here. It will last forever. That is what technology from here stands for.

You get on with your job and leave me in peace to get on with mine.

Regards

Hiram T. Doodlebug III, Colonel (Retired)
